

# Coaches of the Ancient Theatre of Delphi

Delphi Primary School  
5th Grade  
School Year 2025–2026

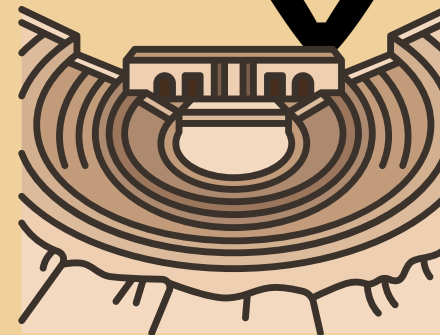

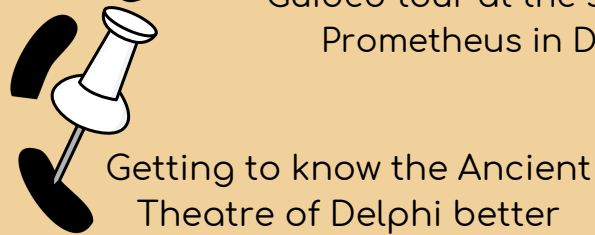

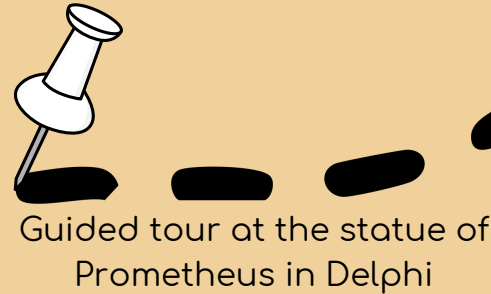

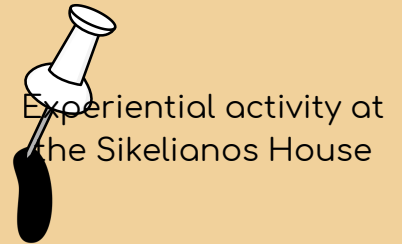

We combined the environmental-cultural program we were already working on with the principles of the DFC program, and the children are already creating change in their community.

Since 2023, we have carried out many activities to delve into the cultural heritage of the Delphic Festivals.

The children felt the need to highlight the fact that the Ancient Theatre of Delphi was the 1st theatre used in modern Greece for a performance of ancient drama.

# Real-Life Superheroes

The Design for Change program and the FIDS principles provided an excellent framework to strengthen the children's initiative in a structured way.

From the website [dfcgreece.org](http://dfcgreece.org), we used material from:

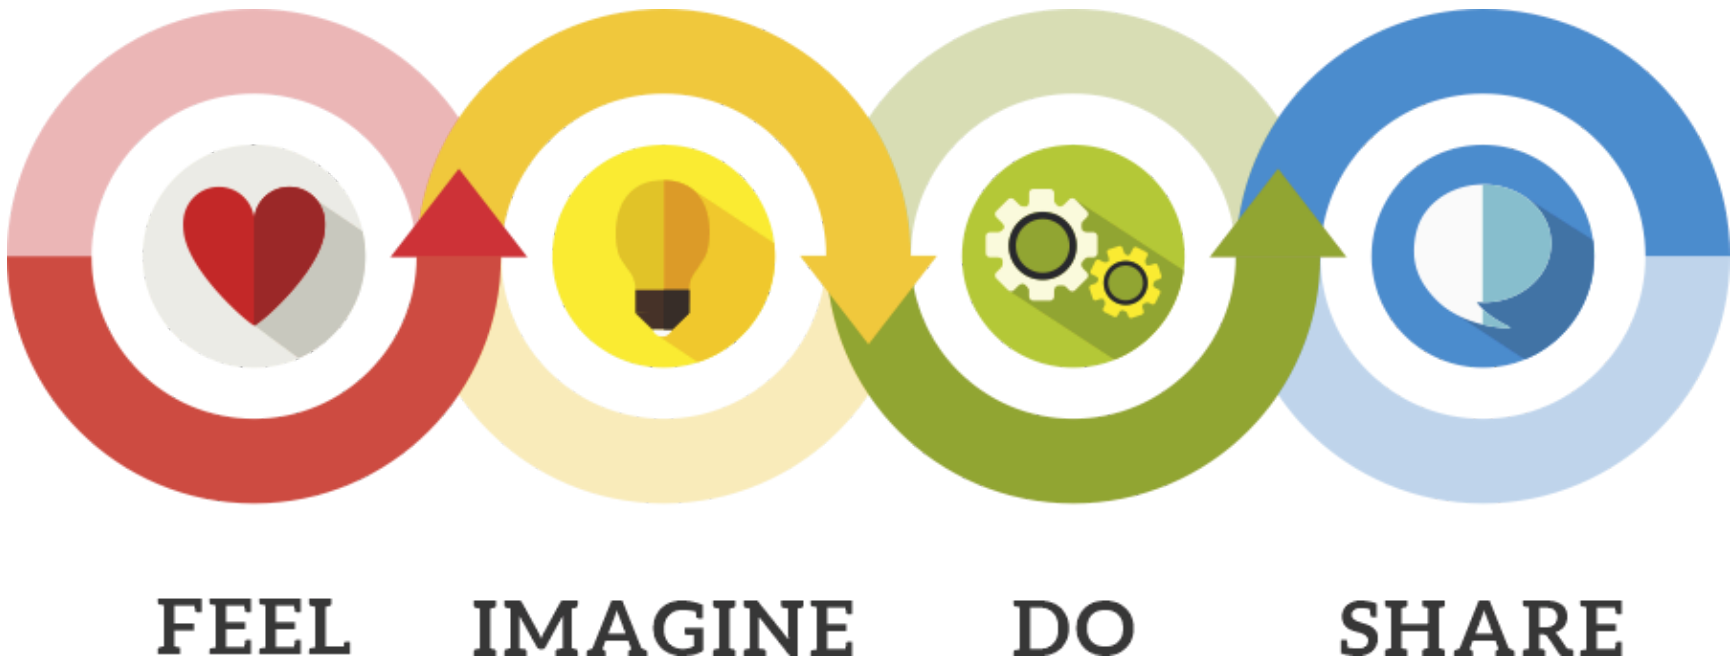

- the section Useful Material
- guide One Idea! One Week!

in order to support the children's desire to promote the Ancient Theatre and to help them shape their action themselves.

# Our Solution

## FIDS for kids

# FEEL

Our children felt:

- Pride for the primacy of the Ancient Theatre of Delphi
- Responsibility to share this information with parents, fellow citizens, and the whole world
- Empowerment to make the Ancient Theatre of Delphi famous for this reason

# IMAGINE

Brainstorming on ways to promote the Theatre:

- We asked the children to write down or sketch (or both) two ideas each for promoting the theatre.
- Each child presented their idea(s).
- Finally, they voted for the most popular one.

# DO

Our children designed and are ready for action:

- Construction of a LEGO model of the Ancient Theatre to present it to the other classes of our school.
- Research for photographs of relatives and acquaintances at the Ancient Theatre (during the Delphic Festivals, at another performance, or during a simple visit) and creation of a photo exhibition about the first theatre used in modern times.

# DO

Children's next goals:

- They are organizing a photography exhibition on their chosen theme at the Archaeological Museum of Delphi so that everyone can visit it.
- The same exhibition will also be digitized and made available online as a reference point for their research and for highlighting the importance of the Theatre.

# SHARE

Our children will share their action and the FIDS method:

- With a Design for Change presentation– party for the Kindergarten and the Junior High School of Delphi
- With their parents and fellow citizens at the opening of the photography exhibition
- With the wider public through articles on the school’s Blogspot.

Our school's Superheroes invite you to visit our Photo Exhibition for the 1st Ancient Greek Theatre that was used for performance in modern era!

Thank you!

Σας ευχαριστούμε
